**Algebraic Notation**

The horizontals (ranks) are numbered from 1 to 8, starting from the rank nearest White. The verticals (files) are lettered from a to h, starting at White's left (the QR file in algebraic is the a-file). The intersections of the horizontals and verticals give the individual squares their names. Study the diagram.

Captures are indicated either by "x" or "x:" and check is indicated by "c" instead of "ch." Pawn captures are given by naming only the two files involved. Study the sample game and use algebraic often—it's easier than you think.
